Introduction”

SEAQ ELECTROMECHANICAL WORKS LLC was established in 2014. Its field of operations extends over all kinds of Electromechanical Works of HAVC, Electrical Installation works, Plumbing, Firefighting, and Low Current systems in (Factories, Villas, Paradise, Buildings and towers). SEAQ team includes Electrical, Mechanical Engineers, Technicians and logistic support experts.

SEAQ Electromechanical Works L.L.C was founded to meet needs of any cross-continental clients and to follow the path of success.

Executive Summary:

SEAQ Electromechanical Works LLC is an engineering company specializing in MEP works, which includes: design, installation, commissioning, maintenance, ventilation, Indoor Air Quality, supply Air Conditioner Equipment's and spare parts.

Vision:

Being a pioneer in the UAE in providing electromechanical services and solutions.

Mission:

SEAQ Electromechanical Works LLC gathers team to help provide our customers with full technical support in the fields of MEP works, installation and maintenance of electromechanical systems and ensure comfortable environment at minimum operational cost. This is achieved by:

- All MEP Services & Interior Design.
- Supervise and implement Planned Preventive Maintenance Program PPM.
- Testing and Commissioning of all MEP Systems.
- All this and more being implemented by healthy, creative, and fairly compensated employees with full appreciation of their quality work and full respect of their needs also supported by comprehensive training program.

Keys of Success:

- Real caring culture.
- Professional way and quality of work.
- Partnership relation with our clients.
- Continues searching for our client needs.
- Continues research and engineering of new systems and ideas.

Competitive Edge:

Our competitive edge is our ability to give our customer a tailored job that fit his need as well as his budget with better financial deals.

Also since we have full MEP work under one name final users should worry less about work or their equipment failure

Company Summary:

SEAQ is a high teach. Electrometrical Company providing its service and experience in integration bases with Consultants and in bases partnership with real estate companies and individual owners.

Thank you,

SEAQ ELECTROMECHANICAL WORKS LLC

WORD FROM GENERAL MANAGER

The ethos of the business is to offer a total service based on collaboration, non-contractual, user friendly and to provide innovative and cost effective solutions to all our clients.

We strive to be at the forefront of all we do on a daily basis and to exceed expectations from inception, through design and to final completion.

We are proud of what we do, the people, the skills, the expertise and know-how and we continue to invest, train and mentor to ensure we develop and evolve to stay abreast of our ever changing industry and its demands. Also to embrace those changes be it in renewables, health and safety,.

Our dedication and pursuance for client satisfaction has been rewarded with outstanding levels of repeat business and a growing portfolio of prestigious projects.

SERVICES”

SERVICES

SEAQ ELECTROMECHANICAL WORKS LLC provides a full portfolio of services in Electrical, Low Current , Plumbing, Fire Fighting and Fire Alarm. All sectors follow the Authority departments in UAE. Our services are detailed as follows:

- **ELECTRICAL WORKS:**

We have a proven track record to Design, Install, Test & Commission Electrical Services to the highest standards for the construction industry or direct to end users.

We have the in house expertise to carry out complex engineering projects from inception to completion with our directly employed Project Managers, Supervisors & Electricians bringing a proactive and flexible approach to understanding our client's requirements, with the ultimate goal of delivering a high quality Installation on time and within budget.

All our installations are in conformance with local authority standards and requirements such as DEWA , SEWA ,Etisalat ,DU, Civil defense, Dubai police etc.

SERVICES

PLUMBING WORKS:

Our services in this field include design, shop drawing preparation, installation of drainage and water supply pipes in High-rise Buildings, Office Buildings, Hospitals, Hotels, Warehouses, Industrial Projects, Villas etc ...

Our Experience includes but not limited to :

a) Water supply

Cold and Hot water piping with PEX ,PPR and high pressure pipes etc.
High level , Riser and Roof Water supply piping.
Installation of Water Storage tanks.
Water Cooling Systems.
Transfer pump and pumping stations.
Booster Pump and control panel.
Installation of P.R.V stations.
Water Meter Room arrangement with meter provisions.

b) Drainage and Sewerage

Underground, raft riser and high level and drainage piping.
Installation of Grease trap, Sand traps and Catch basins etc.
Installation of External Drainage and Sewerage system.
Installation of all kinds of Sanitary Wares.
FIC termination as per municipality regulations.

c)Water Tanks Supervision of Installation & Maintenance.

We are responsible for supervision of delivering GRP water tanks as per approved drawing from authority departments & consultant

All our installations are in conformance with all local authorities standards and requirements such as DEWA , SEWA ,Etisalat ,DU, Civil defense, Dubai police etc.

SERVICES

Fire Fighting & Fire Alarm Works

SEAQ Electromechanical Works LLC is known for having the ability to design a wide range of fire detection and protection systems & provide solutions for every such need that prevent potential fire disasters. Design management is an area that we give utmost priority and that too complying with the DCD rules and regulations. We see that all the installations we do are as per local authority requirements and standards such as Dubai Civil defense, Sharjah Civil defense etc.

Our Experience in the Fire alarm and Firefighting includes but not limited to:

- Addressable Fire alarm system & voice evacuation system.
- Central battery system.
- Firefighting sprinklers, breaching inlet, landing valves, hose reels etc.
- Fire Fighting pumps.(Both vertical and horizontal pumps)
- FM 200 SYSTEM, Pre action system, Foam system.
- Gas Deluge System.
- Testing & Commissioning Fire Alarm & Fire Fighting System.

Air Conditioning

Not only do we install the highest quality and most reliable air conditioning equipment from the world's leading manufacturers and suppliers, **SEAQ Electromechanical Works LLC** also provides an air conditioning service with full Planned Preventative Maintenance (PPM) for air conditioning in all types of businesses.

We provide a comprehensive air conditioning maintenance and servicing programme to ensure that if and when you suffer an air conditioning breakdown, your equipment is back up and running as soon as possible. In fact, our regular air conditioning maintenance options will make sure that if there is a potential fault brewing, we get to it before it causes any downtime at all.

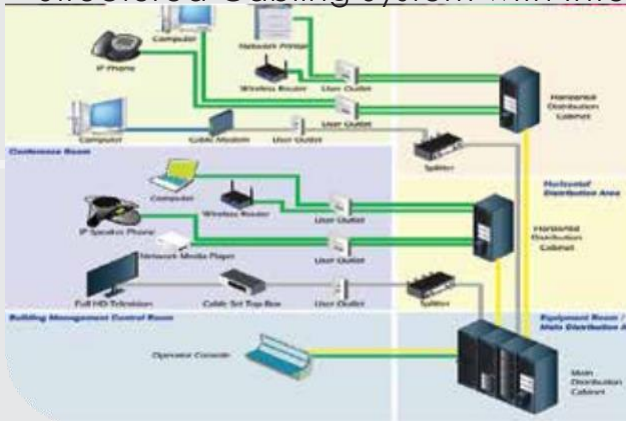

With the high demands and legal obligations placed on commercial and industrial premises to remain F-GAS compliant, it is critical to have a reliable air conditioning maintenance team available.

SERVICES

LOW CURRENT WORKS:

Low Current activities done by SEAQ ELECTROMECHANICAL WORKS L.L.C includes Design, supply, installation and commissioning of the following systems:

- Audio Video Solutions
- Video Conferencing
- Control and Digital Media Systems
- Video Walls
- Digital Signage and Kiosk Information Desk
- Display and Projection Systems
- Room Booking Systems
- Telepresence
- Interactive Television (IPTV)
- * • Public Address and Voice Alarm Systems
- Audio/Video Intercom Systems
- Master Clock Systems
- SMATV
- Lighting Control Systems
- UPS Systems
- GRMS
- Structured Cabling System with Intelligent Solution

“QUALITY CONTROL PLAN”

QUALITY CONTROL PLAN

1. PURPOSE

This document describes the Construction Quality Control System established to provide the necessary supervision, control phases and tests of all items of work, including that of suppliers and subcontractors, that will assure the compliance of all work with the applicable specifications and drawings with respect to the equipment, materials, workmanship, construction, finish, and functional performance, which is the responsibility of our company at the construction site.

2. POLICY

As a construction subcontractor, our company strives to obtain a uniform, high quality level of workmanship throughout all phases of procurement, fabrication, construction, and installation of equipment and facilities. To assure this end, the following principles will be observed:

A. For the purposes of this Quality Control (QC) Plan, quality is defined as conformance to contractual requirements, specifications, and applicable standards.

B. Quality, or conformance to requirements, is the primary responsibility of construction management and the persons doing the work. The QC persons are an added resource to help construction management and the persons doing the work in meeting this primary responsibility.

C. SEAQ ELECTROMECHANICAL WORKS L.L.C will assure the highest quality by maintaining this QC Plan and follow its instructions governing quality control procedures and practices.

D. SEAQ ELECTROMECHANICAL WORKS L.L.C will conform to all contractual requirements, specifications, and applicable standards using this Quality Control Plan. Where a discrepancy exists between this plan and the contract requirements, the contract requirements shall prevail.

E. SEAQ ELECTROMECHANICAL WORKS L.L.C Co will compile accurate records of test certifications and other required documentation and submit them to Contractor.

F. SEAQ ELECTROMECHANICAL WORKS L.L.C will notify the Contractor promptly of quality discrepancies for immediate corrective action and assure that corrective action is implemented properly. We will report these in the Daily Report.

G. The Quality Control Manager (or QC Officer or Quality Supervisor) has sufficient organizational independence to perform all QC functions and has authority to stop work to prevent non-compliant construction products.

H. The Quality Control Manager or a designated assistant shall be on site at all times when construction activities are ongoing to make sure that all activities are accomplished in accordance with contract specifications, drawings and procedures.

1. ORGANIZATION

2. Quality Control Manager

The QC manager reports to and receives authority directly from top senior management. He formulates and implements as required the procedures and instructions contained in this plan. The Quality Control Manager has no other assigned duties.

QUALITY CONTROL PLAN

2. Other QC Personnel

The Quality Control Manager has sufficient assistants and inspectors as necessary to carry out the stated functions of this Plan. The inspectors may have other duties but cannot inspect work that is the responsibility of the organization for which they have other duties.

3. Daily Report

Daily Report shall be recorded using the Daily Report form provided by Contractor. This report shall be submitted to Contractor on a daily basis.

4. Control of Onsite Construction

Sufficient inspections of all work, including that of subcontractors, shall be performed to assure conformance to applicable specifications and drawings with respect to the materials, workmanship, construction, finish, functional performance, and identification. Results will be reported in the Daily Report.

5. Receiving and Warehousing

Inspection of permanent construction materials received will be performed by the Quality Control System Manager, or other contractor personnel. Visual inspection will be made for; identification, damage, completeness, evidence of compliance with approvals, and proper documentation. Results of receiving inspection will be recorded on an appropriate report form and reported in the Daily Report. All material shall be identified and safely protected until used.

6. Drawing and Document Control

Contract drawing, work orders and change orders issued for construction will be maintained and kept current and recorded as it is revised. No technical information will be replaced or revised without receipt of properly authorized change notice, revision or equal.

7. Materials Certification

Copies of all purchase orders or subcontracts requiring receiving inspection will be given to the Quality Control Manager for receiving and record purposes.

When the purchase order requires vendor certification of materials, equipment, or supplies, such certification shall be verified as to accuracy and conformance and may be used in lieu of a test for those properties covered by the certification. Copies of all certifications received will be maintained in the Quality Control folder and submitted to Contractor.

8. Workmanship Inspection

Items which will be embedded in the concrete placements or areas which will be covered up by a following operation will be inspected by the Quality Control Manager. The Quality Control Manager shall verify that all items installed are in accordance with the contract drawings and specifications prior to the placement of concrete or covering. Any corrective action required will be recorded.

QUALITY CONTROL PLAN

4.9 Calibration of Equipment

All contractors furnished measuring and test equipment shall be calibrated and maintained to traceable government standards. Records of these calibration certifications will be maintained by the Quality Control Manager and made available to main contractor upon request.

a. Each instrument will be plainly and permanently numbered, the equipment will be operated only by those persons directly responsible for the equipment or personnel under their cognizance.

b. Each piece of equipment will be checked for accuracy as recommended by manufacturer for frequency of calibration. Required calibration of measuring and test equipment will be conducted by a certified laboratory.

c. Measuring and test equipment dropped, damaged, or believed to be inaccurate will be removed from services and recalibrated.

14.10 Final Inspection and Test

Prior to final inspection or start of tests, all systems being inspected or tested shall be completed and accepted by the Quality Control Manager. After this acceptance, the final inspection and test may proceed in accordance with the following steps:

a. Verify the test personnel have a working knowledge of the special characteristics of the instruments being used.

b. Note the particular inspection or test requirements and criteria for successful completion of the required inspection or test.

c. Upon satisfactory verification of these requirements the test may proceed. Test results will be verified and documented by the Quality Control Manager.

d. The general requirement of final acceptance will include, but not be limited to, the following:

(1) General appearance

(2) Workmanship

(3) Cleanliness of areas and equipment

(4) Identification of equipment

(5) Painting

(6) Removal of unused material and temporary facilities

(7) Condition of Job files and completion of paperwork

(8) Conformance to standards and specifications.

RECOMMENDATION LETTER

TO WHOM IT MAY CONCERN

Reference for **M/s SEAQ ELECTROMECHANICAL WORKS L.L.C**

SEAQ Electromechanical Works L.L.C Company started working as MEP Contractor under the Supervision of M/s Golden Square Engineering Consultants since 2017 in collaboration with M/s Vision Engineering Consultants in Sharjah for Al Nahda house II Project(G+5P+15Typ+Roof) on plot No.161 which they completed it successfully and it has proved to be the most reliable MEP Contractor Company.

SEAQ is professional and efficient in its approach recommended also by our Clients.

Its contribution to all areas of company activity in which it has been involved much appreciated.

We would like to express our thanks for its services working with **SEAQ** for the past **3** years. It is a pleasure working with Eng. Musaab and his staff to create a professional and successful experience with minimum number of defects during DLP Period for the completed project.

This letter has been issued upon his request and leaves no liability for GS to any third party.

Yours Sincerely,

Ahssan Al Ali
Deputy Managing Director

Project: (B+G+1+Roof) Villa, On Plot No. (281-124), at Al Khawaneej (1), Dubai
Owner: Mr. Tariq Abdelrahim Mohamed Ahmed Al Zarooni

Subject: Nomination for Air-Conditioning Subcontractor (M/s. Seaq Electromechanical Works LLC)

Dear Sir,

Referring to the above-mentioned project, please note that the Owner approved **M/s. Seaq Electromechanical Works LLC** as the subcontractor for the supply and installation of Air-Conditioning Works as per their quotation ref. (SEMW/2018/QUO/005/R-12) dated 05th March 2019 (commented copy attached) with total amount of **AED 510,000.00** (Five Hundred Ten Thousand Dirhams Only) (excluding 5% VAT).

Moreover, we want to confirm that after we appointed the nominated subcontractor, the nominated subcontractor is fully your responsibility and his program of work and method of work are to be incorporated fully within your detailed program of works.

So, you are requested to finalize agreement and submit shop drawings as soon as possible.

This is for your information and necessary action.

Thanking you, we remain
Yours faithfully,

Arch Dome Consulting Engineers

Project Manager
